Exhibitor Invitation

Dear Smart Cities Leader,

Leading Cities, a global leader in the Smart Cities industry, is proud to partner with the Smart Ecosystems International Conference and Expo in Lublin, Poland. This June, as industry leaders from around the world gather in Lublin, Leading Cities will be launching our Member City Network in Europe and just a few weeks later we will launch a global call for applications for our Smart City Startup competition called AcceliCity.

We are inviting you to join us in Lublin June 14-15 as an exhibitor to showcase your Smart City solutions to interested partners, buyers and investors.

The enclosed materials outline the opportunities to participate as well as the benefits of sponsorship, should you be interested in further escalating your brand and awareness at this international event.

We chose Lublin and the Smart Ecosystems conference as our launchpad for the Member City Network because of the powerful leadership that has been demonstrated by the municipality, and the attractive investment opportunities that exist within the city. We encourage you to take advantage of this opportunity and join us in Lublin.

We look forward to seeing you in June.

Respectfully,

Michael Lake
President & CEO
Leading Cities

Dear Sir or Madam,

On behalf of everyone engaged in the organisation of Smart Ecosystems International Conference and Expo, I would like to invite you to participate in this event which will take place on the June 14-15, 2018 in Lublin.

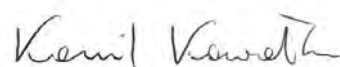

Presentation and panel discussion will cover topics of technology use, effective management and development strategies.

International experts will share their knowledge and experience during workshops dedicated to the representatives of administration.

The Expo area will be devoted to presentation of intelligent solutions developed by companies and organisations. Start-ups will have a special place there. This area will be open to all visitors, citizens, tourists and students.

Lublin is an ideal place to organize such events thanks to its excellent track record in building relations between administration, business and science. Being one of the fastest developing cities in Poland, as well as the European gateway to the East with modern conference facilities, Lublin is a place which will certainly make a favourable impression on the participants of Smart Ecosystems International Conference & Expo.

I heartily invite you to actively participate in our event.

Chairman of the board
Innovation Support

PURPOSE

Promoting intelligent urban development, as well as cooperation with the environment created by entrepreneurs, the scientific community and, most of all, citizens.

The best participatory budget projects, in terms of:

- » eco
- » tech
- » social

Robert H. Lane

THE PRESIDENT OF THE LANE TRUSTED ADVISORS

He has many years of experience at the highest positions in global companies such as General Electric, NORTEL. As the President of Commodore Business Machines, he launched the first VIC 20 home computers and the well-known Commodore 64.

Michael Lake

PRESIDENT OF LEADING CITIES

Expert in sustainable development. He has gained experience in all sectors: public, private, academic and social. He worked in the White House under the administration of two U.S. Presidents. He was responsible for building international relations for the Governor of Massachusetts. As President of Leading Cities, he builds a global network of cooperation between cities, universities and businesses.

Sebastian Grabowski

PRESIDENT OF THE ARCHITECTSPL FOUNDATION

Promoter of the idea of open data and social participation in local governments. Initiator of the Code & Share: an attempt to establish the Guinness World Record in the simultaneous programming done by schoolchildren in which 52 schools took part. Winner of the title #Digital Champion 2017 in the category of Digital Business Personality awarded by the Polish Chamber of Information Technology and Telecommunications. Professionally he is Director of Research and Development Centre, Orange Polska.

Michael Mulquin

PRESIDENT OF THE SMART CITIES ASSOCIATION

A standards expert, he published for the British Standards Institution. For over 20 years he has been working on how technology can be used to improve functioning of regions, cities and estates. He chaired many international teams of experts in setting standards for Smart City. Principal Architect of the TM Forum's Smart Cities Maturity and Benchmarking Model.

Expo area will be situated in a special tent at the Plac Teatralny. All exhibitors will have access to electricity.

Even though setting up exhibition stands lies solely with the exhibitors, individual support can be provided by the organizer.

Stand will be accessible from morning hours on June 14 to 4.00 p.m. on June 15. Also, it is possible to setup a stand on June 13.

The organiser provides security for the night (June 14/15).

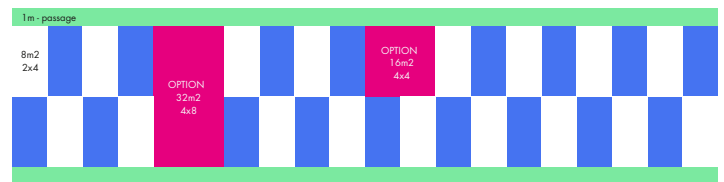

In the event of poor weather conditions, Expo will be moved into Lubelskie Centrum Konferencyjne.

One modul measures 8m² (2m x 4m). Price (1 m²) depends on the chosen expo zone:

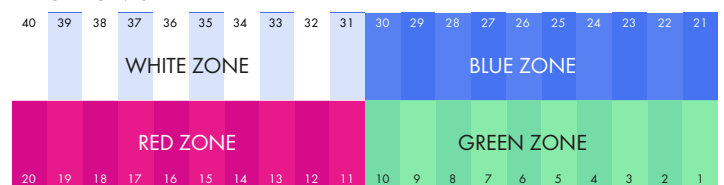

WHITE 150 EUR/150 USD, RED 180 EUR/220 USD, BLUE 250 EUR/300 USD, GREEN 400 EUR/450 USD
